Re: Statement regarding increasing diversity of honors/AP courses

The state is making additional funds available to districts that come up with a plan for increasing the participation of traditionally under-represented groups of students in Honors level or Advanced Placement courses. We want to apply for these funds, but we have to write a brief position statement indicating why we believe it is important to make these kinds of rigorous learning experiences available to students who may not have enrolled in these courses previously. As the principal of our largest high school, your perspective is important. I need you to help us draft a statement (about half a page in length) that spells out our position on getting a more diverse group of students in our Honors and AP courses.

Also, brainstorm some ideas (at least three) about how we can increase the participation of traditionally under-represented groups of students in Honors level or Advanced Placement courses. Include these in the same document. I'll share your ideas at Cabinet.

I need this today.

Thanks.
